## Highway Report

### Road Work

Feb 6-Mar 5

We were able to do some more patching potholes.

We had some tree cleanup jobs to take care of.

We used lots of time plowing and sanding the roads do to the storms.

We have replaced cutting edges , fixed broken plows , spinners , sanders

I received a call from the state troopers stating that a board member wanted one of my employees arrested for trespassing on town property. I told them that he was still my employee. Received a call back and the trooper said sorry for the inconvenience and have a good night.

I personally want to thank my guys for always being available to come in when the weather tells us to. With all the response we have been receiving from our taxpayers , the words thank you have ment so much to us .
