Highway Report

Road Work

Jan 8 -- Feb 4

The Highway Department has.

We have been Plowing and Sanding when needed

Cleaning up fallen trees after wind storms

Checking the roads every morning when not out tending to the roads.

Did some patching where needed

Working on trucks

Had a water problem on 106 that we fixed

Filled some big sink holes on South Branch

Hauling the rest of our sand and salt from Alfred

Fixed a sander control problem we had with one truck

We are installing breaker kits on all of the equipment batteries,
Our insurance company advised us to do this for fire protection.
I will be sending them all the information when we are done installing them.
